# WHY PLUTO?

The very simple reason is that the Love that PLUTO showers on every child is cocooned with the learning skills that Pluto installs in every child which forms the base of their learning in the days to come.

Today the Stars of Pluto are shining bright in the leading schools of the city – and to name a few of them

Today many schools of repute have officially tied up with PLUTO with assurance of admission – and this we believe has happened only due to tireless efforts of our teachers towards implementing the widely accepted curriculum and imparting the righteous education to every child in these early days for which they can easily cope up when they take the initials steps in the high schools.

# ABOUT PLUTO
